

February 2011 Connecticut Bar Examination

Computer Based Testing Download

Software download and registration will open on – January 3, 2011

Registration will close at – 5PM on January 31, 2011

Email notices will be sent every Friday plus the open date until the close of registration with logon information and specific instructions on downloading the software.

The Connecticut Bar Examining Committee (CBEC) is pleased to offer computer-based testing (CBT) for the February 2011 Connecticut bar examination for all applicants who properly register within the above-referenced time period. The implementation of CBT is a direct result of the CBEC's continuing goal to enhance the bar admission process.

You will receive an email with further instructions on how to properly download the secure software when the registration period opens. The email will contain a user ID and password you must utilize to log onto this site, and begin the download process. Information on uploading your responses, taking your Mock exam, ExamSoft and the SofTest application can be found once you register. If you have any questions about this program or the download process, please contact ExamSoft at (866) 429-8889.

SofTest can be used on virtually any modern computer (i.e. purchases within the last 3-4 years). It is **not** possible to take secure exams through a virtual operating system such as Microsoft's Virtual Machine, Parallels or VMware, VMware Fusion or any other virtual operating system environment. Although SofTest can be installed and registered on virtual platforms, it will only be enabled for non-secure Practice Exams. Specific system requirements are noted below.

PC Requirements

- CPU = 1 GHz Pentium III or Industry Equivalent
- RAM = 1 GB
- Drives = 50 MB of free space
- Operating System = English 32-bit Versions of Windows XP, 32-bit and 64-bit Versions of Vista and Windows 7
- Software = Internet Explorer 7.0 or later
- Internet Access for SofTest Installation, Exam Download and Upload
- Screen Resolution must be 1024 x 768 or higher

Macintosh Requirements

A native Mac version of SofTest may be installed and utilized if it is available through your school or exam sponsor. When you attempt to download SofTest, the native Mac version will appear, if it is available to you. Please visit your Custom Home Page to see if it is available to you. In order to use SofTest on your Apple Macbook or Macbook Pro natively, you must have:

- CPU = Intel processor
- RAM = 512 MB
- Drives = 50 MB or higher free disk space
- Operating System = MAC OS X 10.5.8 or higher (Leopard or Snow Leopard)
- Software = Internet connection for downloading/uploading exams
